- There is no additional cost for all of the above diverse and value added services.

What are the salient features of Fund Select Investment Strategies?

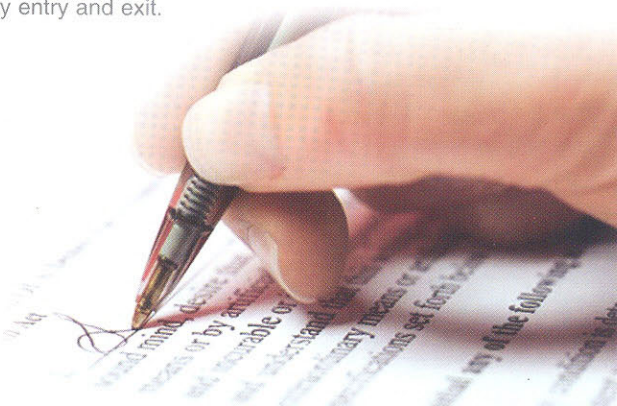

Investing through Fund Select Investment Strategies has reduced risk compared to investing directly in stocks and shares. Your money is simultaneously invested in various mutual funds through professional asset allocation models, thereby reducing your total risk that can arise if all your investments are made in just one fund.

Because Fund Select Investment Strategies comprise of different mutual fund investments, investors are able to further lower their risk.

Our experts also take into consideration the customer's risk tolerance, market dynamics and tax consequences. The rationale underlying here is that our Investment Advisors have special talents in selecting superior funds.

Following are the salient features of Fund Select strategies:

- Customized investment strategies and plans.
- Attractive returns anticipated as compared to other saving schemes.
- Mutual funds regulated by the Government of Pakistan's Securities and Exchange Commission (SECP) with minimal initial investment for individuals and corporations.
- Tax-free investment under existing Government regulations.
- Exemption from Zakat on submission of affidavit.
- Can be used as collateral for availing bank financing.
- Tax rebate for individuals.
- Easy entry and exit.
